**RAL 8014**

The background of the entire page is a close-up, high-resolution image of teak wood grain. The wood shows a prominent, wavy pattern of alternating light and dark brown bands, characteristic of teak's natural grain structure. The lighting is even, highlighting the natural texture and color variations of the wood.

Mahagony imitation

The image shows a close-up, vertical view of a dark oak wood surface. The wood grain is prominent, with alternating light and dark brown horizontal bands. The texture is smooth but shows natural wood variations. In the bottom-left corner, there is white text.

**Dark oak**

**20**  
**Clear oak**

The image shows a close-up, high-resolution view of the grain of Irish oak wood. The wood has a warm, golden-brown to light tan color. The grain is characterized by a series of wavy, horizontal lines that create a textured, almost fibrous appearance. The lighting is even, highlighting the natural variations in the wood's color and grain structure.

**36**  
**Irish oak**

A close-up photograph of a wood surface with a fine, wavy grain pattern. The color is a rich, warm brown, characteristic of golden oak. The texture is smooth and consistent across the entire frame.
